## SKILLS

---

- Oracle SQL
- PL/SQL
- SQL Tuning
- MS Excel
- Problem Solving
- Algorithms
- MS Office
- HTML, CSS
- C Programming
- Java Programming
- Bootstrap
- Data Structures

## EXPERIENCE

---

### COGNIZANT TECHNOLOGY SOLUTIONS

**2021- PRESENT**

**PROGRAMMER ANALYST,** 07/2022 – PRESENT  
**PROGRAMMER ANALYST TRANIEE,** 07/2021 – 07/2022  
**CONTRACTOR(INTERNSHIP),** 01/2021 – 05/2021

- Developer and Data Analyst, responsible for end to end SDLC execution and implementations of client projects.
- Have gained the nuances in handling complex US projects by working closely with the onsite project counterparts.
- Have gained reasonable domain exposure related to Healthcare, Banking & Insurance as a part of project execution.
- Resolved many existing issue on production environment which cut short the errors by 90% and code is fully optimised, resulting in a 30% increase in application uptime. Got recognized as the best "Associate of the Month".
- Act as offshore contact point for all build development related queries/clarification and also working closely with business analyst to provide required support for requirement elicitation and documentation.
- Worked closely with other developers to bring in code consistency and efficiency and also provide required support for performance testing based on project needs.
- Responsible for all unit testing and also working closely with QA and other testing leads to provide end to end testing support for User Acceptance Testing (UAT) and System Integration Testing (SIT).
- Having gained the basic understanding of DevOps tools as there is a need for working closely with Release Management team as a part of deployment management.
- Worked closely with other cross functional team as part of defect management process which includes defect triage, fixes & validation and defect severity adherence.
- Provided Production go-live and warranty support to the project as part of commitment.
- Responsible for Co-ordination on Infosec and Architectural approval with the respective teams on behave of my team.

## EDUCATION

---

### BACHELORS IN INFORMATION AND TECHNOLOGY

- Sri Krishna College of Engineering and Technology, 2017-2021

## ADDITIONAL COURSES

---

- The Complete Oracle SQL Bootcamp.
- The Complete PL/SQL Bootcamp.
- Oracle SQL Performance Tuning Masterclass.
- Microsoft Excel from Beginner to Advance.
- Web Developer Bootcamp (Currently pursuing).

## PROJECTS

---

### Bio-Gas Level Detection System.

- The project is aimed at improving the operational efficiency and to reduce the overall workload for the cleaning & supervision roles. The core idea was to detect the bio-gas level which is emitted in toilets and to intimate the respective supervision officers to take immediate action(s).
- This would enable effective maintenance and speedy response from the cleaning team and thereby drastically improving the customer satisfaction levels.

### Multi Model Medical Image Fusion.

- This project is aimed at improving the operational efficiency and reduces the workload for Physician's. The core idea was to fuse two high quality scanned images into a single fused image that are useful for comparison.
- The proposed approach produces a high quality fused image with high contrast and improved content in comparison with other image fusion techniques without loss of significant details on both levels: the visual and the quantitative.

## AWARDS AND ACHIEVEMENTS

---

- Got featured on "HALL OF FAME" in Cognizant for the best performer of the year.
- Awarded as the best "Associate of the Month" for solving 90% of Production Issue for 2 critical vendors.
- District level runner-up at technoxian line following robot competition.
